FOR IMMEDIATE RELEASE

## **GEOVAX LABS, INC. ANNOUNCES RESIGNATION OF DIRECTOR**

**ATLANTA, GA, July 6, 2009 – GeoVax Labs, Inc. (OTC BB: GOVX)**, an Atlanta-based HIV/AIDS vaccine development company, announced today that Mr. Andrew Kandalepas has resigned from his positions as Senior Vice President and Director of the Company.

Don Hildebrand, Chairman of the Board of Directors of GeoVax Labs, Inc., noted, “We all appreciate his dedication and service to the Company and thank Andy for his positive energy and enthusiasm.” He also stated, “Andy has committed to remain supportive of the Company and we will be pursuing a consulting arrangement with Andy to assist us in many important activities of the Company.”

Mr. Kandalepas was Chairman of the Board, President and Chief Executive Officer of Dauphin Technology from 1995 until the merger with GeoVax, Inc., in September 2006, at which time he assumed the position of Senior Vice President and remained a director of the Company. Mr. Kandalepas has a varied 30-plus year career as an entrepreneur and executive manager. Mr. Kandalepas earned his Electronics Engineering Degree from DeVry Institute of Technology.

### ***About GeoVax Labs, Inc.***

GeoVax Labs, Inc. is a biotechnology company, established to develop, manufacture, license and commercialize human vaccines for diseases caused by HIV-1 (Human Immunodeficiency Virus) and other infectious agents. GeoVax's AIDS vaccine technology is the subject of 20 issued or filed patent applications. GeoVax AIDS vaccines are designed for use in uninfected people to prevent Acquired Immunodeficiency Disease (AIDS), caused by the virus known as HIV-1, should the person ever become infected. GeoVax AIDS vaccines also may be effective as therapeutics (treatment of people already infected with AIDS virus).

GeoVax Labs, Inc.  
Add 1

GeoVax's core AIDS vaccine technologies were developed by Dr. Harriet Robinson, Senior V.P. of Research and Development, through a collaboration of colleagues at Emory University's Vaccine Center, the National Institutes of Health (NIH), The Centers for Disease Control and Prevention (CDC) and GeoVax.

GeoVax's AIDS vaccines have moved forward in human clinical trials conducted by the HIV Vaccine Trials Network (HVTN) based in Seattle, Washington. The HVTN, funded through a cooperative agreement with the National Institutes of Health (NIH), is the largest worldwide clinical trials program dedicated to the development and testing of AIDS vaccines. Preclinical work enabling evaluation of GeoVax DNA and MVA vaccines was funded and supported by NIAID, which provided additional support to GeoVax AIDS vaccine development program with a \$17 million IPCAVD grant awarded in late 2007.

***Safe Harbor Statement***

*All statements in this news release, not statements of historical fact, are forward-looking statements. These statements are based on expectations and assumptions on the date of this press release and are subject to numerous risks and uncertainties which could cause actual results to differ materially from those described in the forward-looking statements. Risks and uncertainties include, but are not limited to, whether: GeoVax can develop and manufacture these vaccines with the desired characteristics in a timely manner, GeoVax's vaccines will be safe for human use, GeoVax's vaccines will effectively prevent AIDS in humans, vaccines will receive regulatory approvals necessary to be licensed and marketed, GeoVax raises required capital to complete vaccine development, there is development of competitive products that may be more effective or easier to use than GeoVax's products, and other factors over which GeoVax has no control. GeoVax assumes no obligation to update these forward-looking statements, and does not intend to do so. Certain matters discussed in this news release are forward-looking statements involving certain risks and uncertainties including, without limitation, risks detailed in the Company's Securities and Exchange Commission filings and reports.*
